

KU THE UNIVERSITY OF KANSAS

Department of Molecular Biosciences

Spring 2006 Seminar Series

Mondays, 3:30pm
1005 Haworth Hall

MAR

March 6

Greg Beitel
Northwestern University
Dept. Biochem., Cell Bio., & Mol. Bio.
Molecular genetics of organ morphogenesis

March 13

Richard Kuhn
Purdue University
Dept. Biological Sciences
Replication Cycles of Togaviruses and Flaviviruses

March 27

Julius Jackson
Michigan State University
Dept. of Microbiology & Molecular Genetics
Molecular genetics of E. Coli

April 3

G. Sullivan Read
University of Missouri, Kansas City
School of Biological Sciences
mRNA Stability in Mammalian Cells Infected with HSV

April 17

Johannes Hell
University of Iowa
Department of Pharmacology
Molecular Basis of Synaptic Plasticity

April 10

Evangelos Moudrianakis
Johns Hopkins University
Department of Biology
Assembly & Dynamics of Nucleoproteins and Chromosome Bioenergetics

April 24

Amy Rosenzweig
Northwestern University
Department of Biochemistry,
Molecular Biology and Cell Biology
Structure/Function Relationships in Metalloproteins

APRIL

MAY

May 1
Ken Kreuzer
Duke University Medical Center
Dept. of Biochemistry
Mechanisms of DNA replication, recombination & repair

May 8

Alan Sher
National Institute of Allergy and Infectious Diseases
Immunoregulation in murine models of parasitic and bacterial disease
